

COVERBIND 101 DFS

Professional results come Automatically

Does your company print and distribute large quantities of in-house publications to clients and other interested parties? Then making a consistent and professional impression is all the more important. The Coverbind 101 DFS makes light work of it. Thanks to highly advanced automatic functions, you can bind up to 900 documents per hour, or 100 documents in just over six minutes. The result? You would be forgiven for thinking they had come straight out off a print shop.

Quick, easy, and effective

The automatic features of the Coverbind 101 DFS are not just convenient; they are something you can rely on – every time. For example, paper jogging, heating and cooling processes are all handled automatically. When you are in a hurry, it is nice to be able to flick through a document straight after binding, without having to wait for the cooling period needed with manually operated binders.

Creating a professional impression is easy!

① Place the set of paper in the automatic cover size selector. The display will indicate a suitable spine width.

② Put the set of paper in your chosen Coverbind Cover.

③ Place one or several documents in the document binder as soon as the green light goes on.

④ Remove the ready-bound document from the tray.

⑤ Congratulations -- you have produced a professionally bound document in an instant !
