

# COVERBIND 5000

## A powerhouse of possibilities at your fingertips

The Coverbind 5000 can be used as your only document binder or as a complement to one of our larger automatic machines. Which ever way you choose, you will not fail to be impressed with this powerful little machine, which can take on more than you might initially think.

The finished results are remarkably like that of a print shop.

# High volume flexibility

The Coverbind 5000 gives you an array of options. To start with, it can bind documents of between 1 to 500 pages in covers which are between 1/16" to 2" in width, or it can simultaneously bind 20-25 small documents.

Perhaps you want to remove a page or add one? No problem – just re-heat the document. This compact and durable system sets the standard for productivity - the fastest table top machine on the market.

## Creating a professional impression is easy!

① Measure the set of paper with the cover size selector.

② Put the set of paper in a cover with the correct spine width.

③ Place one or several documents on the Coverbind 5000 heating plate. Wait a few moments for the signal - binding is complete.

④ Place the documents on the cooling plate for a few minutes.

⑤ Congratulations - you have produced a professionally bound document in an instant!
